In the last issue of the Progressive Home Journal, Mr. L. E. Hunt, the editor announces that he has taken in a partner, in the person of Mr. F. J. Campbell, The Journal as run by Mr. Hunt is a first class paper, and by both of these men putting their heads together it means much for Journalism in Somerset. It will be remembered that Mr. Campbell was at one time editor of the Interior Journal, and the very mention of that alone is a good recommendation for him or any other man.

It's up to the People.

Less than a year remains in which to gather facts, and information that will influence your vote for the next president of the United States. That grievous wrongs have been committed, and grave errors allowed to exist without effort at correction, is evidenced by the speech, writings, and comments of eminent statesmen and jurists; congressmen and leading men of business; professors and clergymen in every state. Party affiliations have been ignored in the outcry against thrusting aside the safeguards of our fathers and rushing pell-mell into the affairs of Europe. The situation is a deplorable one if not alarming; as is also our domestic affairs dominated by gigantic trusts. The evils are not of spontaneous growth! They are the result of years of labor and expenditure of millions of dollars! Beginning with the displacement of American silver for English gold, the cunning of England's diplomacy in shaping the destiny of our Republic is apparent to any ordinary observer seeking the true inwardness of events. The Cincinnati Enquirer has frequently called attention to each and every move as it was transpiring, and during the campaign of 1900 will present its readers with a truthful array of facts that will be extremely interesting and startling. No fair-minded American, be he Republican, Democrat or of other political faith, can afford at this critical time to ignore the truth. Partisan prejudice, with the trusts as dictators, is a far more degrading slavery than that which existed previous to the Civil War of '61-64. Trusts in the United States alone have a representative capital greater than all the gold and silver in the world. These will spend many more millions of dollars to suppress truth and facts and mislead all who fail to look beyond their plausible deceptions. Read the Enquirer and you will be able to discern the truth and combat falsehood. A victory for trusts and the McKinley Administration in 1900 will end the era of greatest good to greatest number. Watch carefully the Cincinnati Enquirer.

THE BEST IN THE WORLD.
We believe Chamberlain's Cough Remedy is the best in the world. A few week's ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Anderson, Ind. For sale by Theo. Wesley, Mt. Vernon, Ky

THE Court of Appeals has decided the governorship contest in favor of Beckham by affirming the decision of Judge Emmett Fields. A writ of error was prayed for by Taylor and was granted by Chief Justice Hazelrigg and the case now goes to the Supreme Court of the United States. The attorneys for Gov. Beckham will at once file a demurrer as soon as the case is passed up and we are confident the contention of the Democrats will again be sustained. For the benefit of our numerous readers we will review some of the points in this great case which is of so much interest to the people. The Legislature met on the 3rd day of January and on the third day a contest board was selected as is provided by the Constitution and Statute. That board after taking the oath heard the evidence introduced by Gov. Taylor and by Mr. Goebel and reported to the Legislature on the 2nd of February in favor of Mr. Goebel; that report was then confirmed by the Senate and House separately and jointly. However, on 30th day of January that gallant leader of the common people was shot down by an assassin while doing his duty in going to the Senate receiving a wound from which he died on February 3rd. On January 31st the day following the assassination of Senator Goebel, Gov. Taylor declared the Legislature adjourned until February 6th, at which time it was to meet in our sister town of London—The Court of Appeals through six of its seven Judges declared that Gov. Taylor had no right and that the order of adjournment was absolutely void. Remember, two Republicans of the bench concur with the Democratic Judges. There was no meeting of the Legislature in the state house from the 2nd day of February until the 19th day of the same month but the Democrats recognizing the fact that Taylor had no authority or power to adjourn that body held regular meetings in the Capitol hotel because the state house was held by armed soldiers by order of Taylor and the Legislature was dispersed at the point of their bayonets from that place and chased by blue-coated partisan, up and down the streets of Frankfort. No sane Republican can now deny but that we were in the right and clearly so; for if we had not been, Judges Burnam and Guffy, (Rep) of that bench, would certainly have never voted in favor of Gov. Beckham. After the legislature had voted in favor of Senator Goebel and Mr. Beckham, they were immediately sworn in. That act made Goebel the legal Governor and Beckham Lieutenant Governor, and Mr. Taylor a private citizen. You notice we say Gov. Taylor and such he was until the regular constitutional authorities passed on his title. The highest court of this State holds that the proper tribunal passed on the merits of the contest, that the Legislature was the only constitutional tribunal which could act upon the question and that it

was properly in session when it decided in favor of Goebel and Beckham. The Democrats have had the law and right on their side from the beginning and have made no movement which has not been warranted by the law and upheld by the various Courts of law. During all this wading-in-blood talk, in the midst of threats and incendiary speeches and actual assassination the Democrats have simply invoked the law, willing at all times and under all circumstances to abide the law, and by it they have been vindicated at every step as is strongly and conclusively shown by this last non-partisan decision of the highest court of our Commonwealth. Let justice be done we say, but if we be law-abiding citizens it is our plain duty to acquiesce in the decision of our courts and obey its mandates. For if we do not, our tribunals are useless; our government a farce, our laws a hiss and a by-word and our social fabric a wreck.

A great storm of protest is coming from the Republicans from every part of the country against the Porto Rican Tariff Bill first passed the House of Congress. The Chicago Times-Herald, one of the leading Republican paper of the west directs an editorial to Pres. McKinley and says in part: "Undo the great wrong to Porto Rico." "Thus was the grievous blunder committed. How grievous and fraught with what dire possibilities, not only to the Republican party but to the country, neither Congress nor the President could have foreseen. But they must realize now that the tariff section in the Porto Rican Bill has aroused a storm throughout the country that will not down."

"If Congress and the President persist in their present course, nothing can save the Republican party from defeat next November. It will surely cost them the House of Representatives, and it may cost them the presidency."

"But one course is open to the Republican party. Let it face the situation with the only spirit that can compel respect in the presence of a stupendous and humiliating blunder. Let it acknowledge the mistake and make haste to regain popular confidence by undoing the contemplated wrong to Porto Rico."

Senator Davis, Rep. of Minnesota chairman of the committee on Foreign Relations has offered an amendment in the senate establishing absolute free trade between the U. S. and Porto Rico and will fight the tariff bill passed by the House.

Ex-Pres. Ben Harrison gave out an interview at his home in Indianapolis a few days since in which he wisely says: "I regard the bill as a most serious departure from right principles."

In some parts of the U. S. Admiral Dewey seems to be very much in it for President, but the great hero is like some other people we have heard of, a pretty good fighter, but not the man for Pres. and unless he can get some one else to lead the procession besides his wife, he had better quit the race.

POSSUM HOLLER.

No noose, no corn, no grass, and our stock all hungry.

Our hogs grub saw-briers, our cattle and sheep peel elders and eat old sedge while the horses and mules—well, they just forage on their nabors; but praise the Lord we have sun sines of spring; the hens cackle early in the morning and occasionally one or two ov them lay. Betsey said old Dominane had bilt a nest in the ash house and laid three eggs, and our nabor Smith's turkey is layin too.

The moon is working south and gittin bigger every day while the sun rises further north by one minit each a.m. and stands one minit nearer Zenith each noon. Yes, and the North Star shines all night just as in former times and under Democratic rule.

Sometimes I think the unsettled state ov n ter and cold backward spring are caused by the political situation in Ky., therefore we suggest that Billy Taylor and those other Billeys rush their case through Uncle Psalms court and fetch it to Possum Holler for "Final Examination" and we'll refer it to Cam Sowder & Uncle Bill and they'll soon settle it.

Rob't Nicely and his sister Lilian are each confined from Pneumonia.

Mrs. C. D. Burnett is still confined to her bed where she has been continuously for 3 years. A. C. Sowder is on foot again.

Much gardening and tater planting done last week.

Farmers are fast catching up with breaking and oat sowing, and we now need rain and more warm sunshine.

For the first time in three years we hear the familiar note of the blue bird. Where do you suppose they have been?

Every land owner or other tiller of the soil should plant from 1/2 to 1 acre in potatoes. It can be made a money crop equal to or better than tobacco. The time for diversified crops has fully come—we can no longer depend wholly on wheat, corn and oats; and we also need more cattle and sheep and, very few horses and hogs, but a good lot of well selected hens but—the geese and turkeys.

Our school at this place continues good and we expect to put on the market in Lincoln, Pulaski and Rockcastle a good lot of teachers, some of whom have 1st class certificates while others have never passed through the mill.

The time is here when the educated young men of the county must seek other fields of employment, give teaching over to women and man unable to do manual labor. What we need is not more teachers but in many cases better scholars and better teachers, therefore we would say to those who intend making teaching a profession, climb higher, for there's plenty of room at the top.

We have a stock of the above that surpasses any ever shown in this section.

A TEXT BOOK
For the Campaign of 1900.

W. H. HARVEY,
The Author of "Coin's Financial
School."

wonderful circulation. The retail
price is 25 cents. In size, it is 35
pages larger than "Coin's Financial

Its treatment of the subjects of
money, trusts and imperialism is ex-
haustive and yet simple and plain as

school in May, 1864, "Coin's Fi-
nancial School," electrified a nation

WAR TO THE DEATH

PESTS OF THE POULTRY
YARD MUST GO!

American Lice Destroyer Kills

Vermin in a Day Than
All Other Remedies
Combined.

The war is on! The days of lice
and vermin that have done so much
to make the life of the poultryman
miserable, and his business unprof-
itable are over. American Lice
Destroyer is the proper ammuni-
tion to use! This preparation is
wonderful in its power, and vermin
cannot exist twenty-four hours after
it is applied to the coop or fowls.
Every poultryman needs it. It is
cheap, reliable and effective, one
package being sufficient to protect
250 fowls from mites and lice for
one year. When this Destroyer is
used, profits at once increase. Lice
and vermin do more to kill profits
than all other causes combined.
You know it. Don't go on losing
money every week, but try Ameri-
can Lice Destroyer. You may have
tried other things without success,
but if this fails you can have your
money back. We are in this fight
to stay, and will back Destroyer
against any number of mites or lice
you may have. Don't fool away
money with "recipes" or home
made makeshifts. Use scientific
means. The American Lice Des-
trover has been used by thousands
of poultrymen; it has been tested
thousands of times. We know it
is all right, and if it doesn't do the
work remember you get your money
back. What more can you ask?
